Community Voices

Read some unique perspectives, stories, and insights from trans, non-binary and Two-Spirit community members.

Many say, “Gender-affirming care saves lives.” When you experience it firsthand, the weight of this statement truly sinks in. This care, this journey, saved my life. Top surgery and hormone therapy became the catalysts for profound change, transforming me in beautiful and extraordinary ways. I am now authentically me—a testament to the power of gender-affirming care.

—G, on their transformative journey

PHSA provides specialized health care services to communities across British Columbia, on the territories of many distinct First Nations. We are grateful to all the First Nations who have cared for and nurtured the lands and waters around us for all time, including the x^wməθk^wəyəm (Musqueam), Skwxwú7mesh Úxwumixw (Squamish Nation), and səlílwətaʔ (Tsleil-Waututh Nation) on whose unceded and ancestral territory our head office is located.
